STYLE FOR THE MAN

In Mobilio you have a car that's built to tackle the toughest roads and look stylish while doing so. Here is a car that you don't just drive, you flaunt. It has smooth driving dynamics to match its futuristic design. One such feature is the Lightning Bolt Belt Line which increases visibility and flow of light into the vehicle as it allows the rear window glass panels to be lower and larger as compared to the front doors. Another fascinating feature in the Mobilio is a quarter glass panel that hides the D-pillar at the rear which gives it a trendy floating-roof look. Basically, it is engineered to flaunt.

CONTROL FOR THE MAN

2 DIN Integrated Audio System

One thing that Mobilio has in abundance is space. It's a car that looks big from outside, but feels even bigger from the inside. Mobilio fits in perfectly with Honda's 'Man Maximum, Machine Minimum' philosophy that believes in maximizing space for you and minimizing space taken by the machinery. This philosophy reflects in the car beautifully as we have designed concave indents on each door that offer more space. Similarly, all three rows of seats are plush with ample area to ensure a comfortable ride. Spacious and good looking, Mobilio is proof that big can be beautiful!
